April Jay Tan

Software Developer/Multimedia Artist

Founder of Syntrix PH, a digital agency started in 2022 and now operated full-time to help businesses grow through websites, custom systems, CRM tools, automation, branding, content, and digital marketing. I started as a multimedia artist and graphic designer, then expanded into software development, web applications, business systems, and performance-focused marketing.

Professional Value
I combine design, development, marketing, and business systems to create digital solutions that help businesses generate leads, manage customers, and improve operations.

PROFESSIONAL EXPERIENCE

Founder & President / Project-Based Developer
Syntrix PH
STARTED 2022 - FULL-TIME PRESENT

- Founded Syntrix PH, formerly known as JTan Mediaworks, and developed it from a freelance multimedia service into a digital agency.
- Lead website, landing page, custom system, CRM, automation, and digital solution projects for business clients.
- Manage creative and technical direction, including planning, UI layout, development, launch, and client support.
- Build custom web tools that help businesses capture leads, manage inquiries, monitor bookings, and improve sales follow-up.
- Create conversion-focused digital marketing assets, Meta Ads strategies, tracking setups, and landing page improvements.

Digital Marketing & Web Development Project
LifeSmart PH / Fine Upgrades / Knowtify Alarm
PROJECT-BASED

- Supported website improvement, Meta Pixel setup, event tracking, and lead generation activities.
- Improved web pages and online assets to support product visibility, inquiries, and marketing campaigns.
- Assisted with CRM-related workflows, lead capture processes, and digital follow-up systems.

Graphic and Frontend Developer
Homesourced Inc. / PYN LLC
2024 - 2025

- Designed front-end layouts for landing pages, websites, funnels, and campaign materials.
- Created marketing graphics, promotional assets, and edited videos aligned with campaign goals.
- Worked on website visuals and digital content used for online brand and marketing execution.

Frontend Developer
MM Ermac Enterprises / Diamond Garments
2022 - 2024

- Created full-sublimation apparel designs, custom layouts, and production-ready artwork.
- Prepared print-ready files and coordinated design requirements with production teams.
- Designed graphics for apparel, branding materials, customer orders, and print requirements.

Computer Operator
LGU Don Carlos
2018 - 2021

- Handled documentation, encoding, record management, and report preparation for community programs.
- Supported administrative tasks, data processing, and office documentation workflows.
